Project Initialization and Planning Phase

Date: 30 September 2026

Team ID: SWTID-2026-3705

Project Name: Import data using transform maps (spreadsheet) **Maximum Marks: 3 Marks**

Define Problem Statements

Customer Problem Statement Template

Create a problem statement to understand the customer's point of view. The statement focuses on the customer's goal, obstacles, reasons, and resulting feeling.

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A team member importing spreadsheet data into the system.	Import spreadsheet data using transform maps accurately.	Spreadsheet columns may not match the target fields and incorrect mappings can cause import errors.	The transform map must correctly map source fields to the required target fields.	Confident when the data is imported correctly and ready to use.

Problem Statement Summary

Users need a reliable way to import spreadsheet data through transform maps, with correct source-to-target field mapping, so that the imported records are accurate and usable.
