Team ID	SWTID-2026-3705
Project Name	Import data using transform maps (spreadsheet)
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	**Stage 1**	**Stage 2**	**Stage 3**
Actions *What does the customer do?*	• Prepare spreadsheet data • Check column names • Open import process	• Upload spreadsheet • Select transform map • Review source fields	• Check imported records • Verify mapped values • Confirm data accuracy
Touchpoint *What part of the service do they interact with?*	• Import interface • Spreadsheet file • Import set / upload	• Transform map • Field mappings • Preview / transform result	• Target records • System table • Imported data view
Customer Thought *What is the customer thinking?*	• Will the file be accepted? • Are columns correct? • Can I avoid errors?	• Are fields mapped correctly? • Will any data be lost? • Is the preview accurate?	• Did every row import? • Are values in the right fields? • Can I trust the result?
Customer Feeling *What is the customer feeling?*	• Careful and slightly uncertain • Focused • Hopeful	• Attentive • Concerned about errors • More confident after preview	• Relieved • Satisfied with correct records • Confident in the result

Process Ownership *Who is in the lead on this?*	Data user / administrator	Data administrator / import process owner	Data owner / system reviewer
Opportunities *How can we improve this stage?*	• Provide a spreadsheet template • Validate required columns • Show clear upload status	• Give mapping guidance • Add field validation • Provide preview before transform	• Show import results • Flag rejected rows • Offer validation summary
